Zone 2 - Westcott Innovation Centre

The Innovation Centre at Westcott offers a 2100 sqft facility which can be customised to suit your business requirements and develop your innovations for the space sector. Whether you need a technical workshop, operations centre, or technical warehouse facilities, we have the space and resources to accommodate your specific needs. The space is available for medium to long term lease (3 – 12 months).

Access our shared areas, including kitchen facilities, lounge and meeting rooms which are also available for use to give you the perfect space to meet with clients, investors, or collaborators. The Innovation Centre is currently home to a variety of space-related businesses working in propulsion, drones and satellite communications, making it the perfect environment to foster collaboration and innovation.

“ Whether you are a start-up, SME, or prime in the UK space industry, we have the expertise, experience, and technology to help you bring your ideas to life quickly and efficiently. Contact us to learn more about how we can support you in prototyping and development. ”
