

Neale Faulkner

Neale Faulkner has worked within the communications and satellite industry for over two decades. Starting as a Network Engineer, alongside being part of the British Army Royal Corps of Signals Reserves, Neale has worked within various telecommunications roles before moving to United Arab Emirates in 2008.

Since being based in the UAE, Neale has been working within the satellite mobility communications sector, with a focus on aviation and safety services, firstly with SITA as a partner of Inmarsat, then directly with Inmarsat (now Viasat), where he has been responsible for Europe, Middle East and Africa.

Neale has a Master of Business Administration from the University of Birmingham and likes to combine his passion for space and satellites with his experience in international business and working across the many cultures within his remit. He looks forward to supporting the British space and satellite sector take its place as a major worldwide contributor to the future of the industry, as part of the Catapult Advisory Group.
