

Paul Markwick

Paul is an Engineer with a long career in the automotive industry in both the public and private sectors. Currently he has a portfolio of business interests, mainly in the transport sector. He also lectures at Oxford Brookes University on Management, Ethics and Sustainability. Previously Paul was Managing Director of Operations for the Manufacturing Technology Centre (MTC), part of the High Value Manufacturing Catapult. The MTC helps to generate rapid and sustainable growth to the economy by delivering integrated manufacturing systems solutions. Prior to joining the MTC, Paul was the Chief Executive at the Vehicle Certification Agency (VCA), an Executive Agency of the UK Department for Transport (DfT). VCA is the UK Type Approval Authority for new on and off-road vehicles, responsible for certifying that these have been designed and constructed to meet internationally agreed standards.

Paul is a Fellow of The Institute of Mechanical Engineers, a Chartered Engineer and has an extensive industry background, including roles at Jaguar, Pirelli, Land Rover and Ricardo. He currently serves on Boards at two Universities, and is a NED at the Satellite Applications Catapult Industrial Advisory Board.
